Languages: HTML, CSS, JavaScript, SQL, GraphQL.

Frameworks/Libraries: ReactJS, NextJS, JQuery, Tailwind CSS, Bootstrap, SCSS/SASS, RazorPages, Umbraco CMS.

Development Tools: Git, GitHub, Sourcetree, Bitbucket, Visual Studio, JIRA, Figma.

EXPERIENCE

Digiwhiz

Feb 2024 – Mar 2025

Jr. Front-end Developer

Ahmadabad · On-site

- Translated Figma designs into responsive landing pages, ensuring a seamless user interface.
- Led the migration of the company's main internal project from SCSS/SASS and Bootstrap to Tailwind CSS, improving code maintainability and modernizing the tech stack.
- Built scalable and accessible UI components with Tailwind CSS, enabling faster development cycles.
- Developed web applications using Next.js, leveraging its server-side rendering capabilities and robust routing.
- Implemented data fetching strategies with GraphQL within the Next.js environment, optimizing for performance and data integrity.
- Gained experience with Umbraco CMS in both integrated and headless configurations.
- Conducted knowledge-sharing sessions to help team members adopt Tailwind CSS, boosting team productivity.
- Enhanced project performance by optimizing unused CSS, reducing file sizes, and adhering to modern web development practices.

Psyliq

Dec 2023 – Jan 2024

SQL Developer Intern

Remote

- Completed the SQL Internship at Psyliq, focusing on mastery of fundamental concepts.
- Mastered DDL for precise database design and DML for effective data interaction.
- Recognized the importance of SQL skills in data analytics.

PROJECTS

Prompt Enhancer

- Gemini API integration for Prompt Enhancement according to the user's needs and role.
- Integrated Notion as CMS for managing blogs and content.
- Implemented Backend using FastAPI and frontend using NextJS.

Seculyzer

- An online platform to analyze your website's security posture, SEO performance, Social Previews, and vulnerabilities.
- Comprehensive SEO audit with metadata, structure, and mobile optimization checks.
- User can refactor how their website appears when shared across different social media platforms and messaging apps.

Open Source Contribution - Vega App

- Enhanced the video player experience by adding a **2x speed gesture on long press** on the right side of the player, replicating YouTube-like functionality.
- Updated the UI of the detail screen, improving **visual design and user experience**.
- Worked with a tech stack including **React Native, TypeScript, NativeWind, and Expo Modules**.
- Collaborated with the project maintainers to integrate the feature seamlessly into the existing codebase.

EDUCATION

Parul University

Bachelor of Technology in Information Technology (CGPA 7.93)

Oct 2020 – May 2024

Vadodara, Gujarat
